

GUIDE

Ebooks and Audible books

Ebooks

You can choose to have your publication recreated in ebook format and have it made available on Amazon's Kindle store or other ebook outlets. **THEPUBLISHING.CO.UK** offers this service as an option for authors who have either had their work made into a printed publication; or who require their existing works converted to the epub or required ebook format, or simply wish to bypass the printed version and publish only as an ebook. Just state which you require on the request for quotation form to receive appropriate cost details.

Should authors require a formatted PDF version of the printed publication created for them by **THEPUBLISHING.CO.UK** this can be provided for a pepper-corn administrative fee, although selling basic PDF versions of your publication is not recommended since it could easily be pirated.

Audio books

Unless you have the wherewithal and ability to create an audio version of your publication yourself, i.e. reading, recording, editing and production, this option isn't currently recommended by **THEPUBLISHING.CO.UK**. Audio book production is an expensive and time-consuming proposition, often costing considerably more than the whole process of creating and printing your book from your manuscript. The financial returns may also be poor. That said, if you are determined to follow the audio route **THEPUBLISHING.CO.UK** can provide help to existing customers along the way, if required.
